

**A AMERICAN  
DRIVING SCHOOL**

## **Santa Clara Driving School**

American Driving School was a great experience. Being an overprotective parent I was very pleased. Putting the safety of your child in the hands of someone else is a tough thing to do, but after having two children attend American Driving School, I would recommend them highly. The teachers were qualified, well mannered, patient, and very trustworthy. Both of my children felt safe, at ease, and ready to start driving. California online driver's education courses for high school students throughout California. Our courses are developed to ensure success and are recognized by the Department of Motor Vehicles.

# Behind The Wheel

California state law requires that each teen that desires to get his/her permit to take 6 hours of behind-the-wheel professional driver education in addition to 30 hours of professional classroom instruction. The behind the wheel portion of our course must be taken at a DMV certified driving school. Upon completion of the course, the student driver will receive certification (OL 238) which will enable him/her for the actual behind the wheel drive test. It should be mentioned that, as of July 1, 1998, the teen drivers' license laws have been changed. The requirements are that, in addition to the six hours of driver education, fifty hours of behind the wheel experience are needed with a licensed driver (25 years of age and older). 10 of the 50 hours must be completed during the night.

# Easy Driving Courses

**TEEN Behind the Wheel** - This is the State mandated 6 hour behind the wheel training course. It consists of (3) two hour lessons, conducted by instructors who are licensed by the State of California. Free pick up and drop off provided.
